

Hello (name)

Thanks for coming in the other day to review your orthodontic treatment. I am really pleased with our expected result. I have performed a few other small modifications to your case to improve things even more without adding on to your overall treatment time. In about (time frame) you should achieve the beautiful smile you've always wanted. Per our conversation, I have attached an avi. file (movie) of your planned tooth movements. Because of the size of the file I have sent two other emails with avi. attachments that show other views. You can play the movies by simply clicking on the arrow on the bottom of the screen.

I look forward to seeing you on (date & time)

Best wishes,
